

H.E. THE GOVERNOR, ENG. JOHN MRUTTU TODAY RECEIVED AUDIO-VISUAL MATERIALS

H.E. the Governor, Eng. John Mruttu today received audio-visual materials containing the County's Profile from the National Ministry of Sports, Culture and the Arts; Department of Film Services.

The state department had partnered with the County Government, through the County Department of Administration and Devolution, to map out and document all the resources as well as the natural and physical features in each of the 20 wards in the County; through the combined efforts of the county administrators.

This information is going to be very useful in attracting investors and tourists to visit our great county; "the Hidden Treasure". The outputs included DVDs, Magazines and pocket friendly booklets

The United Nations Development Programme (UNDP) subsequently partnered with the County Government in producing multiple copies of these resource materials developed.

These materials will be available at the County Complaints Compliments and Information Centres in the four Sub Counties. They can also be downloaded from the County Website.
